We are very aware in the current economical climate that long-distance travel is expensive and time consuming. Because of this, for 2009 the best 4 results from the 5 events will count towards Championship points.

British Cycling will use the results from the above events to help decision-making on entries for UCI International Trials events.

### British National Trials Championship 2009

A single event Championship will be held on Sunday 7<sup>th</sup> June at the Nevis Range, Fort William in conjunction with the UCI World Downhill Cup round. A spectacular event, entry into the trial gives free entry into the bigger event!
